WORK EXPERIENCE

Forma.ai **Pune, Maharashtra**
Customer Operations Analyst *Jan-2024 – Apr-2025*

- Automated reporting workflows using VBA/macros, reducing manual effort by **80%** and workflow size by **~60%**
- Built a **one-click reporting system**, cutting execution time by **~75%** through end-to-end scripting.
- Developed **scalable data pipelines** for high-volume business units (Stryker Canada), ensuring **100% accuracy** and timely delivery.

TECHNICAL PROJECTS

FormCraft - No Code Custom Form Builder
Personal project

- Built a no-code **drag-and-drop** form builder with dynamic fields, conditional show/hide logic, and a polished user experience.
- Implemented JWT auth with RBAC, anonymous public submissions, Razorpay payments for premium features, and automated Node-Cron cleanup of inactive accounts.
- Architected using MongoDB, Express, Zustand, and Tailwind/Shadcn for production-ready scalability.

EduFlow - LMS
Personal project

- Built full-stack LMS using Node.js/Express/PostgreSQL/Prisma, React/Vite/Zustand/Tailwind with JWT auth & role-based dashboards.
- Added auto-graded quizzes, Razorpay payments, enrollment, and PDFKit certificate generation.
- Built analytics dashboards (progress, quizzes, enrollments), email notifications & REST APIs.

Quiky - Quick Commerce Platform
Personal project

- Developed full-stack quick-commerce platform for 10-20 min deliveries via dark stores and smart rider assignment.
- Implemented browsing, cart/checkout, tracking, inventory CRUD & multi-role dashboards.
- Built with Node.js/Express, PostgreSQL/Prisma, React, JWT, Google Maps, and push notifications.

EDUCATION

SRM Institute of Science and Technology **Chennai, Tamil Nadu**
B. Tech – Electronics and Communication *June 2024 | CGPA: 9.17/10*

- **Major Project: Design of Smart Eyewear MIMO Antenna for 5G -** Designed and simulated MIMO antenna in CST Studio Suite to improve 5G connectivity and signal diversity for AR smart glasses.
- **Leadership:** Served as **Joint Secretary** in the Directorate of Alumni Affairs, coordinating events and alumni engagement initiatives.

SKILLS

- Languages: JavaScript, C++
- Frameworks/Libraries: React.js, Node.js, Express.js
- Databases: MongoDB, PostgreSQL
- Tools & Platforms: Git, GitHub, VS Code, Docker, MS Excel (Advanced)
- Concepts: Data Structures & Algorithms (DSA), REST APIs, System Design

LANGUAGES

- Hindi (Native)
- English (Fluent)
